

PROTEIN DAILY

OPTIMAL HEALTH

DELIVERING THE IDEAL MIX
OF PROTEIN, FIBER, AMINO
ACIDS, AND MICRONUTRIENTS
TO HELP YOU ACHIEVE YOUR
OPTIMAL HEALTH.

Your body depends on protein for key immune health functions, energy production, muscle building, weight loss and weight management. It is critical that you have a daily supply of supportive nutrients for your body to perform at its best.

The right blend of ingredients makes you stronger and will give you lasting energy and optimal health. Decades of science and research by Dr. Kedar Prasad and his team, are behind this powerful combination of whey and egg proteins, fibers, vitamins, minerals, and micronutrients that provide a renewable energy source for your body to perform at its best.

SIX SUPERHERO INGREDIENTS MAKE UP THIS POWERFUL FORMULATION:

WHEY PROTEIN for immediate release to help you burn fat, preserve muscle mass, and improve strength.

WHOLE EGG PROTEIN for a timed release to help you feel fuller longer, and enhanced with important vitamins, minerals and amino acids required for muscle growth.

ESSENTIAL AMINO ACIDS that help replace those that your body cannot make when proteins are broken down during digestion so that your body recovers quickly and protects muscle mass.

CITRULLINE that converts to arginine to improve dilation of blood vessels—helping oxygen better deliver important energy to the body, support heart health, and improve endurance.

INSOLUBLE FIBERS that accelerate the elimination of toxins in the body, and promote the movement of material through the digestive system.

SOLUBLE FIBERS that produce butyric acid—protecting you against a variety of intestinal issues while improving absorption, keeping your gut healthy, lowering blood cholesterol and glucose levels.

This naturally, stevia, sweetened, gluten free, super smart protein formula helps propel your muscles into action. Together these powerhouse ingredients help:

- Boost your metabolism
- Satisfy your hunger
- Stabilize and promote good digestion

Every bag of our Protein Daily includes 30 servings of 30g.
