

Engage Global Consultant Benefits

ENGAGE GLOBAL CONSULTANT

An Engage Global **Consultant** is an individual (of legal age) or a legal entity that is an **Independent Contractor** who contracts with Engage Global and is Licensed to market Engage Global's products in any manner authorized by Engage Global as detailed in the Engage Global **Independent Consultant License Agreement**. By reference, this document forms part of the Independent Consultant License Agreement.

There are two ways to become a Consultant:

1. Complete the Engage Global enrollment process and pay a \$29.95 Licensing fee which provides access to the Engage Global Virtual Office, a personalized Website and 24/7 online marketing presence, plus access to the Engage Global App that houses the proprietary artificial intelligence called E.V.I.E. (Engage's Virtual Intelligence Entity).

Or

2. Complete the Engage Global enrollment process and purchase a \$199.80 **Engage Pack** and Enrollment is **FREE**. All other benefits are included as indicated above. By selecting the Engage Pack to build a business, for that initial month the Consultant's business is **Qualified** to earn any Bonuses available, subject to the **Business Volume (BV)** generated.

An Independent Consultant may enroll both Customers and Consultants and becomes their **Enroller**. Before the end of the calendar month of **Enrollment**, the Enroller may opt to place both new Customers and new Consultants in any open position under the Enroller's business. **Placement** of a new Consultant under an open position does not affect the Enroller's status as Enroller.

Placement of a Customer in an open position results in giving the Enrollment of that Customer away to the Consultant the Customer was placed under. However, the Enroller may not give Enrollment of a Consultant away to another Consultant in their business.

If an Enroller has not elected to place either a new Customer or a new Consultant by the end of the calendar month of Enrollment, default Placement is permanently assigned to the original Enroller. All Placement changes are permitted one time only, but once Placement has been assigned, either actively or by default, it is permanent.

PRICING

A **Consultant** may enroll **Retail Customers, Preferred Customers** and other **Consultants**.

Retail Customers purchase Engage Global products at will. Retail Customers may take full advantage of the initial \$19.95 one-time offer for a month's supply of MMF Hydro or Capsules. Additional orders, however, cost \$65 per unit (see Table 1).

Preferred Customers may likewise purchase their first month's supply of MMF for \$19.95. Preferred Customers are designated as preferred by choosing to establish a **Monthly Convenience Order** and enjoy loyalty pricing in the amount of \$49.95 per unit. Consultants also pay \$49.95 price per unit – no Monthly Convenience Order required (See Table 1).

CUSTOMER BONUS & DIRECT BONUS

A 20% **Customer Bonus** is paid to the Enroller on all Customer purchases (Retail and Preferred). An initial \$19.95 order generates a Customer Bonus which is paid daily, but does not generate any Business Volume. On all subsequent orders, including Monthly Convenience Orders, 20% is paid monthly and 25 in Business Volume is generated and used to calculate and pay other bonuses (see Table 1).

A 20% **Direct Bonus** is likewise paid to the Enroller on a new Consultant's first \$199.80 Engagement Pack enrollment order. A new Consultant may purchase as many Engagement Packs as are deemed necessary to initiate and build their Independent Engage Global business. Each Engagement Pack purchased as part of the first order, generates a 20% Direct Bonus for the Enroller and generates 100 in Business Volume with the following exception.

When an Enroller personally develops 3 Consultants who choose to build their business with an Engage Pack, during the Enroller's initial 30 days, the Business Volume on those three Engage Packs doubles once the third Enrollment is processed. Also, the Enroller is entitled to receive Double BV on all future Engage Pack enrollments).

The box of Free product included in an Engagement Pack does not generate a Direct Bonus or Business Volume. All regular ongoing Monthly Convenience Orders placed by a Consultant generate 50 Business Volume per unit purchased for \$49.95 (see Table 1).

** Compensated through all remaining portions of the Engage Global Benefits

Promotional pricing offered to incentivize team building (may or may not include product giveaways) can alter any associated Business Volume. Please refer to promotion details as applicable.

All Bonuses associated with first orders, from both Customers and Consultants, are paid DAILY (before midnight each business day – weekends and holidays excluded) when they are in the Engage Global system by 4:00 p.m. Mountain. Bonuses on first orders received after 4:00 p.m. Mountain are processed and paid the following business day. Bonuses associated with ongoing purchases are paid monthly.

QUALIFICATIONS AND REQUIREMENTS

No **Personal Business Volume** (generated by you plus any personally enrolled Customers) is required to earn the 20% Customer Bonus or the 20% Direct Bonus associated with a first order.

Except for Customer Bonuses and Direct Bonuses, a Consultant must be **Qualified** each month by generating between 50 and 100 Personal Business Volume as specified by **Rank** (see Table 2). Failure to maintain Qualified status any given month by not meeting Personal Business Volume requirements, will result in **Compression** of the overall Business Volume generated by the **Placement Tree**. Compression starts at the bottom of the Placement Tree and happens when a Consultant is found who has generated less Personal Business Volume than the amount specified to be Qualified (or none at all). As illustrated in the following example, whether the volume of the Inactive Consultant is zero or greater, it will be combined with the Volume of the next Qualified Consultant above for Bonus calculation purposes only (not Qualification) and Bonuses are calculated accordingly.

Example: Joseph Enrolls Mark who Enrolls Sue. Mark, including his Personally Enrolled Customers, fails to generate at least 50 Personal Business Volume to be Qualified during the month of May and generates only 25 Personal Business Volume. Both Joseph and Sue generate 100 Personal Business Volume from personal and Customer orders. During the month of May, starting at the bottom of the organization, Sue’s Personal Business Volume is added to Mark’s Personal Business Volume (100 + 25 = 125) and for the month of May only, Sue and Mark’s joint Personal Business Volume counts as Joseph’s second level.

As illustrated in the example below, failure to Qualify (generate a minimum of 50 Personal Business Volume from personal and Customer orders) 6 consecutive months, a Consultant will no longer be considered **Active**. Consequently, the Engage Global Independent Consultant License shall be revoked and the Consultant shall be reclassified as a Customer. Any remaining Active Consultants or any Customers in the organization built below the reclassified Consultant, who is now a Customer, will permanently **Roll Up** to the next Active Consultant in the Enrollment Tree. Should this occur, please note that the Enroller status will be permanently reassigned accordingly.

Example: Joseph Enrolls Mark who Enrolls Sue. Mark and his Personally Enrolled Customers purchase less than 50 PV required for 6 consecutive months while Joseph and Sue each remain active by generating at least 50 PV during the same 6 consecutive months. At the end of six months, Mark is reclassified as a Customer under Joseph and is no longer an Engage Global Consultant. Sue permanently Rolls Up to Joseph as his new Direct. Sue’s Enrollment, however, is reassigned to Joseph.

Monthly Personal Business Volume, including any personal Monthly Convenience Order, is required to earn other bonuses detailed in the Engage Global Benefits Plan (see Table 1). Monthly Convenience Orders are not required to earn Bonuses, but are encouraged.

Also, Customers on a Monthly Convenience Order receive 10% of the \$49.95 purchase price in **Engage Bucks** that can be exchanged for product at the rate of one dollar per Engage Buck. Bonuses are not paid on purchases made with Engage Bucks and Business Volume is not generated.

TEAM BONUS

The Engage Global Team Bonus is calculated based on the **Organization Business Volume** - Business Volume generated by the **Placement Tree** which includes the **Enrollment Tree** (which forms as one person Enrolls another person – much like a family tree). A **Line** forms with each **Direct** Consultant you have either personally Enrolled or who has been Placed frontline. A new **Level** forms going down each Line from one Consultant to the next. Beginning with Rank 3 (Engage 3), no more than 50% of the Organization Volume can come from one Line – this is called the **50% Rule**.

Illustration 1.1 provides an example of an Enrollment Tree where A Enrolls B who Enrolls C, D, E and E Enrolls F. We will use this illustration as the basis of our subsequent discussion about Placement.

Illustration 1.1

As discussed, Personally Enrolled Consultants may be Placed anywhere in the originating Consultant's business. When a Consultant is Placed within the first eight levels, the Organization Business Volume generated will contribute to the Team Bonus in accordance with the achievement of Rank qualifications and the number of Levels accessed by Rank.

Placement can be given away without restriction. However, Enrollment cannot be given away due to the potential to create a loop in the programming logic used to calculate Bonuses.

For Team Bonus calculation purposes, Customers count as an extension of their Enroller. However, for qualification purposes only, Customers form a **Virtual Line** for the Enroller. All personally Enrolled Customers form this Virtual Line.

Business Volume generated by Customer and Consultant purchases (Organization Volume) is used to calculate Team Bonuses as indicated in Table 3. Organization Business Volume requirements apply by Rank. Calculations, are processed by multiplying the allocated percentages by the Organization Business Volume generated, Level by Level. Full monthly Compression and Roll Up always apply.

TRUE INFINITY BONUS

The True Infinity Bonus is calculated based on the entire Volume generated by the Placement Tree beginning with Level 9 through an infinite number of Levels. The True Infinity Bonus offers a powerful way for Leaders (Ranks 7 to 13 – Freedom 1 to Ambassador) to be compensated on ALL Volume they help develop (see Table 4).

True Infinity	Starting with Level 9 through an infinite number of levels.						1%	1.5%	2%	2.5%	3%	3.5%	4%

The True Infinity Bonus is a powerful portion of the Engage Global Consultant Benefits and it has the potential to overpay as the organization grows and Infinity Bonuses begin to stack on top of Infinity Bonuses. As a control, Engage Global sets a 45% **Payout Cap** on the entire Engage Global Consultant Benefits plan. We apply the Payout Cap to the True Infinity Bonus in such a manner that there are always True Infinity Bonuses paid, but they are prorated as necessary to protect the Cap.

TEAM BONUS MATCH

Matching Bonuses are a percentage of the Team Bonus (paid on Levels 1-8) earned by a Leader (Ranks 8 to 13 – Freedom 2 to Ambassador). An **Upline** Leader, who qualifies to earn a Team Bonus Match can be paid through as many as four **Generations** (defined by each occurrence of a Rank 7 – Freedom 1 – or higher-ranking Consultant encountered down any given Line of the entire Organization, regardless of the Level where they occur). As indicated in Table 5, Rank 7 (Freedom 1) qualifies for 1 Generation of Matching bonus at the percentage specified. Rank 8 (Freedom 2) qualifies for two Generations of Matching Bonus. Rank 9 (Freedom 3) qualifies for 3 Generations. Ranks 10 to 13 (Legacy 1 to Ambassador) each qualify for four Generations of Matching Bonus at the corresponding percentage specified by Rank.

RANK ADVANCEMENT BONUS

In recognition of advancement in Rank by meeting all qualifications specified, Engage Global offers Consultants the following Rank Advancement Bonuses which initiate the month the qualifications are met. To continue earning Rank Advancement Bonuses, the Consultant must Rank-qualify each Payout Month specified (see Table 6).

RANK ADVANCEMENT BONUS

For example: If a Consultant qualifies to earn the \$5,000 Freedom 3 Rank Advancement Bonus, the Consultant will receive the first of four \$1,250 installments the first month. If the Consultant fails to qualify the second month, the Consultant forfeits the second installment. If a Consultant qualifies the remaining third and fourth months, the Consultant will get the third and fourth installments.

TERMS AND DEFINITIONS (In order of appearance)

As listed below, Engage Global uses a variety of terms in its description of the Engage Global Benefits:

CONSULTANT

Consultants are independent contractors and are not purchasers of a franchise or a business opportunity. Consultants are not employees of Engage Global and are responsible for their own time and hours dedicated to building their own Social Direct Marketing business and are licensed to utilize Engage Global's business platform to assist with their method of sale. Consultants are further responsible for paying all taxes due on bonuses earned.

INDEPENDENT CONSULTANT LICENSE AGREEMENT

The Legal contract establishing Engage Global's relationship with an Independent Consultant as defined in the Engage Global Statement of Policies.

E.V.I.E. (Engage's Virtual Intelligence Entity)

Evie is a proprietary sales, training and communications system that utilizes artificial intelligence to take a Customer prospect from point of entry to sale and a Business prospect from point of entry to the highest desired level of achievement.

QUALIFIED

Generate the Personal Volume specified by Rank each calendar month through personal and Customer purchases.

DIRECT BONUS

Paid to the Enroller – 20 percent of a new Consultant’s first order, which may include one of the \$49.95 registration options, plus as many of the “Buy 3 get 1 Free” promotions as desired – available only with an initial purchase.

BUSINESS VOLUME

A value assigned to each product and used to calculate Team Bonuses and True Infinity Bonuses. Business Volume is also used to determine Rank qualifications. Business Volume includes all personal orders and personal Customer orders. Business Volume is used to determine whether a Consultant is Qualified.

PLACEMENT/PLACEMENT TREE

Upon Enrollment, an Enroller may opt to Place a new Enrollee beneath someone else to help strengthen the team. Team Bonus calculations treat the Placement Sponsor as the Enroller for the Team Bonus and for any other Bonuses that are based on the Team Bonus.

The Placement Tree tracks the placement relationships from person to person. It also incorporates the Enrollment Tree (described below) for Team Bonus calculations.

ENROLLER

A Consultant who directly invites and Enrolls either Customers and/or Consultants to consume Engage products and/or participate in the Engage Global Business Opportunity. Only Consultants may Enroll both Customers and Consultants.

Unless an Enroller has relinquished Enrollment due to inactivity and the resulting Roll Up of the organization, they will always remain the Enroller and as such will earn any associated Enrollment Bonuses available in the Rank Advancement portion of the Consultant Benefits.

ENROLLMENT TREE

A linear structure that initiates with a Consultant and connects them to those Customers and Consultants they personally Enroll ... and to those Consultants and Customers that person personally enrolls, and so forth. Everyone in the Enrollment Organization connects back to an original Enroller.

RETAIL CUSTOMER

A consumer who purchases the Engage Global products at the Suggested Retail Price of \$65. The difference between the Suggested Retail Price and the Consultant Price of \$49.95 is \$15.05. Engage Global utilizes \$15.05 to offset administrative costs associated with Retail Customers and to avoid creating a conflict with the Monthly Convenience Order program. Less than 2% of Engage Global sales are derived from Retail Customers who pay \$65 per unit of product.

PREFERRED CUSTOMER

A consumer who establishes a Monthly Convenience Order (see below) and pays the discounted loyalty price of \$49.95 per unit of product ordered directly from Engage Global. Additional orders enjoy the same discounted pricing. Preferred Customers also earn Engage Bucks (see below).

MONTHLY CONVENIENCE ORDER (MCO)

A recurring order that automatically processes on the date each calendar month the Consultant or Preferred Customer has selected. A Consultant or a Preferred Customer may have multiple Convenience Orders. In recognition of consumer loyalty, Additional orders enjoy the same pricing.

Convenience Orders may be paid for: 1) with a Credit Card on file or 2) via automatic debit from the Consultant's eWallet provided by Engage Global.

CUSTOMER BONUS

Paid to the Enroller – 20 percent of all orders placed by a Customer or Preferred Customer.

PERSONAL VOLUME

The Business Volume personally generated by a Consultant plus the Business Volume generated from purchases made by Personally Enrolled Customers.

RANK vs TITLE

Rank governs Bonus eligibility while Title is for Recognition. Example: A Consultant may have achieved the Title of Freedom 2 and will continue to be identified at that highest Title for recognition purposes. However, afterwards, if the Consultant only meets actual Rank 7 requirements associated with a Freedom 1 Title, the Rank, not the Title, determines the benefits that the Consultant will earn that Bonus Period (calendar month).

COMPRESSION

When a Consultant fails to Qualify by generating the minimum Personal Volume required by Rank, any Business Volume generated will move to the next Qualified Consultant and for Bonus calculation purposes only, will be compensated as though that volume was generated by that Consultant where the Business Volume was moved. Compression does not affect Qualification.

ACTIVE

Generate a minimum of 50 Personal Volume (including Customer purchases) at least once every 6 consecutive months. Failure to remain Active will result in the Engage Global Independent license being revoked and the Consultant being reclassified as a Customer. Any Downline (Customers and Consultants) will permanently Roll Up one level to the next Active Consultant above. An inactive Consultant is free to re-enroll under any Enroller they choose and must notify Engage Global before placing an order.

ROLL UP

When a Consultant fails to Qualify for 6 consecutive months, their Engage Global Independent Consultant License is revoked and the Consultant is reclassified as a Customer. Any remaining Active Consultants in the organization built below them will permanently Roll Up to the next Active Consultant above in the Enrollment Tree and in the Placement Tree (as applicable).

ENGAGE BUCKS

Customers earn 10% of a Monthly Convenience Order in the form of Engage Bucks as an incentive to maintain their Monthly Convenience Order. As Engage Bucks accumulate, they may be exchanged (one Bucks per dollar) to obtain product. No Volume Points are awarded and no Bonuses are paid on products acquired with Engage Bucks. Engage Bucks earned is displayed on the Customer Dashboard. A minimum of 50 Engage Bucks are required per unit of product redeemed. Failure to maintain a Monthly Convenience Order shall result in the loss of any Engage Bucks accumulated.

eWALLET

Upon Enrolling in Engage Global, each new Consultant is given an eWallet account. Bonuses are deposited into a Consultant's eWallet. A Consultant may allow Bonuses to accumulate in their eWallet until the Consultant chooses to withdraw them by requesting a check from Engage Global (no limit on the number of withdrawals per month). A Consultant may also use Bonus funds to purchase products.

LINE

An individual who is Enrolled and/or Placed directly below a Consultant, with no one in-between, initiates a Line.

DIRECT

A Consultant who has been Enrolled and/or Placed frontline to the Enroller.

LEVEL

Levels form as you go down each Line from one Consultant to the next.

50 PERCENT RULE

Beginning with Rank 3 (Engage 3) No more than 50 percent of the Organization Volume may be generated from any one Line.

CROSSLINE

Anyone under a separate Line of an Enroller's Enrollment Tree

VIRTUAL LINE

For Qualification purposes only, Engage Global allows the Business Volume generated by Customers to count as one of the four Lines required to maximize the earnings potential of the Engage Global Consultant Benefits Plan.

PAYOUT CAP

Engage Global pays Bonuses on no more than 45% of the Business Volume generated each month. Due to the nature of some portions of the plan that can potentially overpay, this Payout Cap will be used, only if needed, as a control. As necessary, the cap will be applied first to the True Infinity Bonus and then to the Team Bonus Match. In both cases, the total percentages allotted for these bonuses will be pooled and reduced by the amount necessary to protect the 45% Payout cap. Consultants will then be paid a pro rata amount based on Rank and the adjusted bonus percentages for which the Consultant is Qualified.

UPLINE

The Consultants in the Enrollment/Placement Tree(s) above a given Consultant who preceded that Consultant's Enrollment.

GENERATION

Defined by the occurrence of a Rank 7 (Freedom 1) or higher-ranking leaders in any given Line of the entire Placement Organization, regardless of the Level where that Level occurs. A Generation Starts with the Rank 7 or higher-ranking leader and goes down to the next Rank 7 or higher-ranking leader.
